

ARPOL

Uniones Arpol, is a family business founded in 1976 and one of the pioneers in the designing and manufacturing of couplings for all types of pipes.

Nowadays, the company leads the water market in Spain and offers a made-to-measure manufacturing system that is internationally acknowledged. One of the company's characteristics is the wide range of solutions available, which include an exclusive series specifically designed for flexible pipes.

The I+D+I department is one of our biggest assets. We are constantly creating innovative products; we evolve with the market and study each project individually to provide our customers with the made-to-measure couplings adequate for every application.

Our priority is our customer's satisfaction. We commit to every project with excitement and responsibility. We guarantee a high quality standard, therefore we supervise the whole manufacturing in our premises in Barcelona, we have our own patents and brands, and we meticulously apply the appropriate norms and regulations.

Pipe materials	INSTAL	REP	FIX			TRANS
